For Immediate Release**DAHLE INTRODUCES NEW LINE OF PERSONAL SHREDDERS**

Peterborough, NH, March 1, 2006 – It's all about convenience with Dahle's new Personal Size Shredders. Whether you're an executive, a secretary, or someone looking for added security at home, these machines are small enough to accommodate any workspace yet powerful enough to get the job done. Dahle's smallest line of shredders are designed for shredding up to 100 sheets of paper per day and are perfect for destroying bank statements, credit applications or financial records.

"Dahle's smallest shredders are perfect for personal applications and are ideally kept at arms length," said Scott Prokop, VP, Dahle North America, Inc. "That way you'll never have to leave your desk to properly dispose of confidential documents."

These machines feature Automatic On/Off operation that uses an electronic sensor to turn the machine on. All you have to do is position your document in the feed opening and the shredder will take care of the rest. Bag Full Auto Off is another convenient function that notifies you when the shred bag is full and needs to be

changed. It's these state of the art features that saves you time and takes the burden out of shredding confidential documents.

Dahle Personal Shredders are built with a 8 3/4" feed opening and available as a strip cut (model 30104) and a cross cut (model 30114) shredder with a retail price of \$595 and \$795 respectively.

Dahle North America, Inc. is a fully integrated manufacturer and distributor of business machines and office products with a brand name recognized for quality and precision. Dahle markets more than 300 products, including paper shredders, paper cutters and trimmers, scissors, letter folders, and pencil sharpeners, for the home, office, and art markets.
